Leisure Centre Portfolio

## ■ Leisure Centre Experience

Hulley & Kirkwood has extensive experience of providing M&E design for leisure centres across the UK. We supply holistic solutions that are cost effective and which ensure sustainability is at the forefront of every design.

Our capabilities include;

- Mechanical Engineering
- Electrical Engineering
- Sustainability & Renewable Energy
- Public Health Engineering
- Facilities Management
- Lighting Design
- Energy Assessment
- Acoustics
- Medical Gases
- Simulation & Modelling

### Haverfordwest Leisure Centre, West Wales:

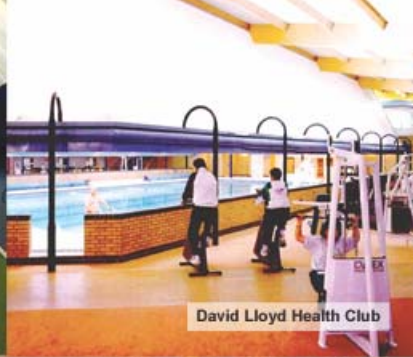

An innovative new leisure centre which features a multi-purpose sports hall and a two-storey health and fitness suite. The 25m swimming pool is the largest in the county and incorporates an adjustable floor and boom for sectioned public swimming.

### Next Generation Clubs:

Detailed design of the M&E services for the redevelopment of a number of Next Generation Clubs. Facilities include; tennis courts, swimming pool, gymnasium and dining and bar areas. The programme included the refurbishment of the following clubs; Hatfield, Dartford, Bristol, Gidea Park (Romford), Hertford, Cambridge, Ipswich, Carlton Club (Paddington), Swindon, Reading, Ilford and Glasgow.

David Lloyd Tennis Centre

David Lloyd Health Club

Rupert Street Sports Centre

Haverfordwest Leisure Centre

### David Lloyd Leisure Centres:

This project included the refurbishment of facilities in a number of David Lloyd Clubs. The use of heat pump technology was employed to provide the pool environment with properly controlled and dehumidified air to assist in pre-heating the pool water itself. The development included the following; Tennis Centres - Hull, Glasgow and Birmingham, Leisure Centres - Bushey, Brooklands, Chigwell, Cheam, Kidbrooke, Enfield, Eastbourne, Cardiff, Hatfield, Sidcup and Raynes Park.

### Healthland Clubs:

This project included the refurbishment of health and leisure clubs on behalf of Healthlands in Scotland. The programme included clubs at Livingston, Middlesborough and Glasgow.

### Rupert Street Sports Centre, Birmingham:

This was the final phase of a regeneration project of the area. The sports centre, which is the new training venue for the Birmingham Bullets Basketball Team, contains indoor facilities for basketball, badminton, 5 a-side football and a gym. Outdoor facilities include a 3 a-side pitch and a full size grass football pitch.

### Moat House Leisure & Neighbourhood Centre, Coventry:

As part of the Government's NDC (New Deals for Communities) initiative, this project included the provision of a leisure and community centre as part of a regeneration of the area. This new build project included a sports hall, fitness suite, dance studio, all weather pitches and bar and dining accommodation for the local community.

### **Watford Central Leisure Centre**

Demolition of existing Victorian pool with a state of the art complex comprising 25m pool, sports hall, gym and rock climbing wall.

### **Watford Woodside Leisure Centre**

The existing centre was redeveloped with a new extension to provide a 25m pool with a moveable floor, learner pools, a new sports hall and a gym.

### **Halkirk Community Sports Centre**

Facilities include an indoor arena, gym, climbing wall and an outdoor football field meeting SFA standards located in the far north of Scotland.

### **Olton & West Warks Sports Club**

Redevelopment of the existing facilities which include a hockey pitch, new tennis and squash courts, bowling green, state of the art cricket pitches and a new clubhouse.

Hulley & Kirkwood is a practice of highly innovative M&E Consulting Engineers, committed to providing 'Best Value By Design'.

Our success is founded by the provision of a first-class service to our clients, coupled with an unrivalled reputation for reliability, technical knowledge and design expertise.
